BULBOUS IRIS OR NOVELTY IRIS

The cut flower irises or the orchid. Are very ornamental and hardy everywhere.

Culture same as for tulips. For best effect they should be planted in groups of 25 or more. They grow 25 to 36 inches high and come in bloom following late tulips and continue bloom until middle of July. No word can describe the beauty of these novelty irises. You must try and see it to convince yourself.

We offer the best collection on Pacific Coast. Choicest select varieties imported by us direct from Holland in 1927 and will be for sale this fall for first time. Following classes; Dutch, Spanish, English.

GLADIOLUS OUR SPECIALTY

We have not the longest list, but only the best and select varieties choice from all over the globe. You are not required to stake any bulbs selected from our list. Frankly we don't like the stake idea and we sell only first class bulbs, but cannot compete with backyard or dishonest dealers who put only junk on the market at cut prices.
